PONTIAC is the low-priced car that gives you riding comfort

In the Pontiac Six you'll find a great many things that contribute to this riding comfort. You'll appreciate the extra-long wheelbase and extra-length springs, entirely enclosed for lasting, perfect operation. And shock absorbers which can be inshock absorbers which can be in-stantly adjusted by the Ride Con-trol. Then, in addition, there are 47 points of rubber cushioning throughout the chassis which pre-

You'll find Pontiac's extra large bodies and adjustable front seat very comfortable, for the seat cushions are equipped with the same type of springs as the finest

All through the car you'll find this true: that even in the hidden things we have spared nothing for your comfort.

This isn't all of Pontiac's story. There's power, speed, acceleration, too. But you can learn these best by driving the car yourself. We cordially invite you to try it.

natural because we do it so much. In the last analysis, the individual who is praised knows well-enough whether or not the kind words are justified and deserved. That is why it is a fallary to believe that praising does more harm than good. If you have had the experience, however, of being praised when it was well-earned, you will realize what genuine joy it gave and what a tremendous incentive it.

Your Colds doubly dangerous NOW!

S CATTERED cases of "flu" are reported in many sections of the Dominion. Coming in the season when pneumonia takes its heaviest toll, this makes colds—so prevalent here now—doubly dangerous. For, so often, colds pull down body resistance and pave the way for "flu" and pneumonia.

Don't Wait for a Cold to Develop. At the first sign of stuffiness or irritation in the nose or throat, sunff some Vicks VapoRub up the nose. Repeat as need-ed during the day. This will often check a cold at the start.

check a cold at the start.

If a Cold Has Developed, don't neglect
it. At bed-time, rub the throat and
chest vigorously with Vicks, spread on
thick and cover with warm finanel. If
the head is clogged with mucus or
there is much coughing, melt a spoonful of Vicks in boiling water and inhale the steaming medicated vapors.

Don't Take Chances With Colds Now!

OLIVE OIL for the complexion! Always known to keep skin, soft, supple, youthful.

But can you get enough olive oil in soap? How much, scrully, goes into Palmolive? There is the energ amount—in that test-cube at the right. To this generous olive oil content can be directly tasced the great benefits of Palmolive Soap to the

complexion.

Do you know what is in the soap you are puning on your face? Palmolive tells you. Palmolive is the only large-selling soap made of vegetable tools exclusively. Other Palmolive ingredients are simply palm oils necessary to produce a tither, creamier, more workable lather than possible with

New Chevrolet Six Owners Know What a Difference Six Cylinders Make!

LITERALLY millions of owners know that it's wise to choose a six-cylinder Chevrolet. In fact, so many motorists have discovered the difference six cylinders make that today the Chevrolet Six leads all other automobiles in sales.

Six cylinders are better in every way. For example, Chevroler's six-cylinder motor "pitks-up" in highe gear quickly and without vibration. You get away ahead of the traffic and you do not have to shift gears so often.

Secondly, you can drive as fast and as far as you like without any sense of strain or fatigue. For six-cylinder travel is smooth, quiet and restful at every speed.

Then, too, Chevrolet smoothness is of built-in smoothness—inherent in six-

cylinder design and Chevrolet's method of insulat g engine from chassis by thick rubber cushions. it protects against the wear-and-tear of constant vibration as long as you drive your Chevrolet.

In addition to these great advantages, Chevrolet offers you Free Wheeling with safe, silent System-Mesh gear shifting. It gives you 60-horsepower performance with lowest operating costs of any full-size car, regardless of the number of cylinders. And Chevrolet provides Bodies by Fisher ---

Drive a Chevrolet Six. You will find one pleasure and advantage after another to en phasize the fact: It's Wise to Choos a Cherroles Six!

What are TODAY'S lowest prices on— Groceries? Shoes? Furniture? Drugs? Women's Apparel? Clothing?

Do YOU Know the ANSWERS?

YOU should! For only by knowing TODAY'S market offerings and their various prices can you possibly spend your daily household allowance to greatest advantage. Without accurate knowledge of the correct answer to these questions you cannot pass an "examination" in the "class" of household economy with flying colors.

And really, this vitally necessary information is so easily acquired. A moment or two a day, spent in carefully reading your "text book"—the advertisements in this Newspaper—and you learn not alone what the day's markets afford, but exactly where the items you want and need may be obtained TODAY at the most advantageous prices. These advertisements are published as your guide to economy. You owe it to the family purse to "study" them and thereby enjoy all the benefits they offer.

Watch the Food Pages
Every Monday, Thursday
and Friday

The Monday, Thursday and Friday editions of this newspaper contain special FOOD SEC-TIONS . On these days, particularly, the manufacturers of nationally known food products as well as the local merchants dealing in all manner of foodstuff; call YOUR attention to their offerings. Form the habit of reading these pages regularly, You'll be agreeably surprised at the savings such reading makes possible.

Few advertisements in your newspaper start that way. Yet most of them are just as personal, and almost as promising:

Manufacturers and merchants must know your needs and wants, or go out of Business. They must know, for instance, that about the first of next month you'll be very much interested in a new hat, or a new lamp, or new towels. They must foresee your wishes-and have what you'll want when you want it.

And they do-constantly striving to suit, at the lowest possible prices. Then telling you in advertising of the gift they have brought from the far corners of the earth, to please Your Royal Highness.

Read the advertisements in this paper. They are addressed to you-personally. They bring you news of better things to have and easier ways to live. Intimate news, of immediate

Have you driven the NEW McLAUGHLIN-BUICK EIGHT ? It's something to tell your ONTARIO

IF you haven't driven one of the new McLaughlin-Buick Eights you're missing a new thrill which many of your neighbors have enjoyed. It's an experience you owe yourself, for surely you want to know about everything that will advance your motoring comfort. People all over Canada are trying these cars to enjoy the new driving case which comes from Wisard Control-the foot-button which completely climinstes the use of the clutch in year changing. Read what people in your vicinity are saying: You too will want to find out all about this new

kind of motoring which has established new standards of motor car value. Drive a new McLaughlin-Buick Eight under the same condi-

tions that these people did. Come in and we'll gladly furnish a car for you to test. There's no obligation

The books are here that bring us all
The knowledge of the Earth's estate,
Before the flood, that fall,
And long before the troglodyte,

Back of the Eden dream sublime, Before the snake, or Eve's first kiss; Back to the ooze of mud and slime That borders on time's dark abyss.

Men, nations, gods have come and gone, And now these weighty books portray The mysteries of Earth far dawn With faiths and fables passed away.

e need never have suffered for all those years

His headaches, poor appetite, low vitality could have been corrected by eating a delicious cereal containing "bulk" and Vitamin B

HIS poor health resulted from constipation. It brought dull headaches to cloud his days, sleeplessness to break his nights. Office hours were handicapped. Ambition blunted.

He tried to correct his conditionwith pills and drugs. He found he had to keep increasing dosage to get results. Then, one lucky day, he heard about Kellogg's ALL-BRAN.

He put this tempting cereal on his daily menu. In a month, it seemed hard to believe he was the same man. A new spring to his step. A new light in his eyes. A new outlook on life.

What makes Kellogg's ALL-BRAN se good for you? It furnishes two things needed to overcome common constinution: "Bulk" to exercise the intestines; Vitamin B to help tone the intestinal tract. In addition, ALL-BRAN supplies twice as much bloodbuilding iron as an equal amount by weight of beef liver.

The "bulk" in ALL-BRAN is similar to that of lettuce. Inside the body it absorbs moisture, and forms a soft mass, which gently clears the intes-tines of wastes. Two tablespoonfuls daily are usually sufficient. In severe cases, use ALL-BRAN with each meal. If your intestinal trouble is not relieved this way, see your doctor.

Special cooking processes make ALL-BRAN finer, softer, more palat-

able. Enjoy as a cereal or use in cooking. In the red-and-green package. Sold by all grocers. Made by Kellogg in London,

SNOWBOLIND

The last brief storm which fell upon this district quite upoet the lives of many to the district quite upoet the lives of many. It did not make so much difference to the natives but it did to those who were on the highways and code. Once again the best laid schemes of mice and men might be said to gang at agier, tansports chose Belleville as a sort of roadstead as they waited for the opening of the drifts which had formed an impassible barrier between this section and the free country beyond which had expend the blanket of snow. NTRODUCING Your Old Friend

MR. PICOBAC is a homely, smiling philosopher on the Lake Erie front —"the tropic belt of Canada." He has been associated with the development of the tobacco industry in the county of Essex, Ontario, since the

early days. He knows tobacco-especially the Burley variety of tobacco. And he knows a little bit about human nature, too. He will discourse on some of these things from time to time in the daily press.

Watch for him. And in the meantime, if you want a mild . . . sweet . . . cool smoke, try Picobac.

For sale at tobacco stores everywhere. And don't forget, you get more cobacco for your money.

use of Aspirin will always check a cold. Or relieve your cold at any stage. And Aspirin can't hurt you. Take two tablets at the first indication of a cold, and that's usually the end of it. If every symptom hasn't disappeared in a few hours, repeat. Aspirin does not depress the heart. Take enough to give complete relief. And if your throat is sore, dissolve three tablets in water and gargle away all soreness. In every package of Aspirin are proven directions for colds, headaches, sore throat, neuralgia, neuritis. Millions who used to suffer from these things have found winted comfort in Aspirin. At drug stores everywhere.

Tave you driven Battle Eight for 1932?

There's a new kind of Motoring to Learn About

DON'T let your neighbor learn about the new case of driving that Wisard Control makes possible before you do. And don't be content with merely reading about it, for the 1932 McLaughlin-Buick brings a new thrill to motoring that you can experience only by actual operation.

Nor is this merely a transitory thrill. Not at all! McLaughlim-Buick performance provides a new motoring comfort that is permanent.

And at the same time, the new McLaughlin-Buick Eights are materially lowering motoring costs. We'll be glad to give you any information desired, and to furnish a car for you to drive. Call us, now!

OF course, most people buy motor can for the convenience they give. But most of u also demand two other qualities—mathess and economy. The new Pontiac was built specifically to meet these important requirements. It is truly smart—with chromed V-rediator; low, flowing lines; sloping windshaled, and graceful, rounded corners. This new styling is right in the forefront of motor car fashions; in fact Portices in Fasher Bodies was much to do with setting the style. Pontice also lives up to its good looks;

much to do with setting the style. Pontile eals by su to its good boilt; performance and reliability match it file appearance. Why should the Residual to the search of th at he extra cost. Node control, free wheeling, syncro-mesh transmission, silent second, high compression motor, enclosed springs, rubber cushioning at 47 chassis points—Pontiac brings them all to the low-priced field.

It won't always be easy, of course, to stay within the budget. That's where advertising helps you. Advertisements in this newspaper tell you how much rugs, butter, breakfast foods, dishes, homes, automobiles will cost, before you go shopping! They point out ways to save money. They show you how to cut a little here; a little there. And each day, they tell about new inventions, new products, new ways of doing things, that help make this life of ours very much worth living!

Thursday CAPACITY DAY

one of the biggest value-giving events of this particular season I. You no could recall our Capacity Days offerings of last fall and last spring
— what buying activity, there was I. But why shouldn't there be I. We've planned and worked to get the most unual values — now
winted goods at extra low prices — and we realize we simply have to have something extraordinary in an effort to meet the days of last year.
We think we've accomplished our aim — come Thursday and decide for yourself as to whether these offerings are deserving of CAPACITY ORONOGO FEXTINUSIASTIC BUYERS I.

MORE than ever, life in-surance is a boon to all—to the Unineured as well as the Insured.

As its premiums accumulate As its premiums accumulate they are promptly used to assist in purchasing homes, in aiding farmers and financing industry—thus keeping Canadian citizens gainfully em-

It insures more than Life—it helps to provide work for the Breadwinner, and Food, Com-fort and Shelter for his family.

..in times

like THESE

It supports the Nation, too-the collective enterprise of all the people. During the Great War, for instance, the Sun Life Assurance Company of Canada itself subscribed for \$70,000,000 Canadian and allied govern-ment war loan bonds.

Last year the Sun Life sub-scribed \$23,000,000 to Canascribed \$23,000,000 to Cana-dian government issues. A portion of the proceeds of these loans was to relieve unem-ployment. Even the jobless share indirectly in the benefits of life insurance.

The Sun Life is an important factor in restoring prosperity to Canada. For over sixty years it has been privileged to serve its policyholders and proud to serve the State. To-day, its world-wide organization and facilities make it more serviceable than ever to the whole community.

Do YOU Know the ANSWERS?

TODAY'S market offering sand their various prices can you possibly spend your daily household allowance to greatest advantage. Without accurate knowledge of the correct answer to these questions you cannot pass an "examination" in the "class" of household economy with flying colors.

And really, this vitally necessary information is so easily acquired. A moment or two a day, spent in carefully reading your "text book"—the advertisements in this Newspaper—and you learn not alone what the day's markets afford, but exactly where the items you want and need may be obtained TODAY at the most advantageous prices. These advertisements are published as your guide to economy. You owe it to the family purse to "study" them and thereby enjoy all the benefits they offer.

HOOT MON! Never did I see sich Big Values and Low Prices as the paper tells on. I'm off ta the shops to huy a year's groceries, clothing, boots, hardware, and a that, and a that, Gosh I can save enough money to take a trip back to Bonnie Scotland.

Hoot Mon, out o' me way, here's where I can save money by spending it, did ye ever hear tell the like. No an' ye never will not in this generation.

How to Escape

and Grippe

- Avoid so far as possible the places where germs are most likely to be spread; overprowded cars and public meeting places: overheated, stuffy rooms.
- He careful of close contact with others and 2 beware of all coughers and sneezers; breathe through the nose, get fresh air, but avoid deafts or chilling.
- Get lots of rest. Drink plenty of water. 3 Keep the bowels open. Take extra precaution to keep in good physical condition, so your system will have normal resistance against germs.

Try, particularly, to avoid catching cold. Colds lower your resistance to disease germs. At the first sign of any cold, take

- some Aspirin; remain Indoors If possible until your cold is gone. And if you have a sore throat, dissolve three Aspirin tablets in a quarter glassful of water and gargle; this relieves the soreness, and usually reduces the inflammation.
- 5 if you have any reason to suspect even a touch of flu, call your doctor at once.

ANSWERS?

VOU should! For only by knowing TODAY'S market offerings and their various prices can you possibly spend your daily household allowance to greatest advantage. Without accurate knowledge of the correct answer to these questions you cannot pass an "examination" in the "class" of household economy with flying colors.

And really, this vitally necessary information is so easily acquired. A moment or two a day, spent in carefully reading your "text book"—the advertisements in this Newspaper—and you learn not alone what the day's markets afford, but exactly where the items you want and need may be obtained TODAY at the most advantageous prices. These advertisements are published as your guide to economy. You owe it to the family purse to "study" them and thereby enjoy all the benefits they offer.

HOOT MON! Never did I see sich Big Values and Low Prices as the paper tells bn. I'm of ta the shops to buy a year's groceries, clothing, boots, hardware, and a''that, and a' that. Gosh I can save enough money to take a trip back to Bonnie Scotland.

Hoot Mon, out o' me way, here's where I can save money by spending it, did yo ever hear tell the like. No an' ye never will not in this generation.

Put away the woolens and welcome spring

Bowl of Healthful CRISPNESS

AREN'T you tired of the heavy, hot dishes of winter, just as you are of overcoats and mufflers? Put away the woolens and add a touch of crispness and variety to breakfast by serving Kellogg's Rice Krispies.

These crunchy bubbles of rice are as crisp as a spring morning. They actually crackle in milk or cream. All the nourishing goodness of toasted rice. Rich in energy-readily digested.

One of the best cereals for children. They love to hear Kellogg's Rice

Krispies snap and pop in the milk or cream. Watch them eat! Fine for the nursery supper.

Brighten breakfast tomorrow with this "different" cereal. Even cold weather, nowadays, doesn't require an old-fashioned heavy, hot breakfast. For we live in warm houses, ride in closed automobiles. We even dress differently.

Then why not eat accordingly? Rice Krispies are economical, convenient, healthful. Made by Kellogg in London, Ontario. Quality guaranteed.

Go window-shopping

in your easy chair

Relax for a moment and turn the pages of your newspaper. Let the advertisements help you to make your shopping plans. Do you need a dress, or a coat, or a hat? Perhaps a new blanket for a guest-room, some curtain material, or even a few new pots and pans for the kitchen? Of course, there are many things you want and need....but you may be letting many of them wait until you see in a store or a window exactly what you have in mind, at an especially alluring price.

Those are the very things you will find in advertisements. Attractive articles, new and improved ones, prices that make quick action an economy. Think how many steps it can save you to hunt out these things, and find them, in comfort at home! If a special opportunity is offere, you'll know about it in time. When new articles are announced, you can have them before they are the least bit out of date. And you can save hours of waiting and asking, miles of steps-and money too!

These are but a few of the ways the advertisements in your newspapers can serve you. If you read them every day, you are sure to grow wise in the ways of purchasing . . . and saving.

Tragedy struck at the heart of the Village of Point Anne, six miles east of this city, last night, four of its residents meeting death when the care in which they were the considerable of the care in which they were the care in which the transport of the care in which the transport of the Canadian Pale of City was lettered by the care in th were denosited.

Everett Mastin, 55 years old, taxi-cab owner. Miles Cummings, 26 years old. Dorothy Darlington, 14 years old. Rennotta Storr, 14 years old.

Remotts Storr, 14 years old.

Mr. Maith conducted a taxi service from Joint Anne to the city, and made several trips during the day, and evening. His passengers of last night were coming to the city to see the hockey game. The father of Miles Cummings, to Goe Cummings, rode in the car from Frank McDonaid's store in Point Anne to the postorioe in the same place, and they came on to Belleville.

I'd be Safe down here"

Evening rates on "Anyone" (station-to-station) calls begin at 7 p.m. Just give "Long Distance" the number you want — it speeds up the service.

Dad was sitting in a movie down in Dad was sitting in a movie down in Florida — far away, he thought, from business. Suddenly he saw his name flash on the screen. He hurried to the manager's office. Long Distance was calling and, in a moment, he heard Tom's voice:

"Sorry to bother you, Dad, but they made me sales manager here yesterday and I'm in trouble already. I'd like your advice."

"You young rascal," 'Dad said, "I thought I'd be safe down here. But tell me what's wrong and maybe I can help you."

When Tom left the telephone a few minutes later, he was relieved in mind and ready to settle things. Once more, and ready to settle things. Once more, in an emergency, Long Distance had been a ready servant — dependable, quick, easy to use and surprisingly inexpensive.

Chevrolet Now Builds a Complete Line of

2-TON HEAVY DUTY TRUCKS

NOW Chevrolet brings matchless economy of gasoline, oil and upkeep to the heavy duty truck field. Moreover, the complete line of new Chevrolet 2-ton Heavy Duty Trucks are built specifically for the strengous kind of heavy hauling service.

For example, Chevrolet six-cylinder Heavy Duty Trucks have the Clark full-floating rear axle, specially developed for heavy duty work. Clark heavy duty foureed transmission is another feature of these trucks. In addition, Chevrolet trucks have a special, six-cylinder truck engine-smoother, faster, more powerful and with longer life. The pressed steel channel frame is exceptionally deep and rugged. A special truck clutch is provided. Wheels are interchangeable throughout and there are several tire options.

Chevrolet Heavy Duty Trucks are built on two wheelbases - standard 131-inch, and 157-inch for hauling bulky loads. There is a wide variety of body types to suit every heavy hauling field.

Before you buy any Heavy Duty Truck, get the new Chevrolet specifications! You will find a model exactly suited to the work you have to do-a 2-ton Chevrolet Heavy Duty Truck at one of the world's lowest truck prices and with lowest ton-mile operating costs?

you can't get these essentials* of a real suit for

> less than \$ 94 A lot of men have gambled on machine-made suits, turned out by the hundred by unknown makers, at prices lower than Tip Top's. Their purchases proved a most expensive experiment. If first-class, dependable suits could be made to sell for less than

\$24, Tip Top Tailors would make them.

Everything that goes into a first-class suit of clothes, Tip Top buys for less. Tip Top Tailors have made millions of garments. In Tip Top clothes you get the cash benefit of all the savings made possible by tremendous buying power, and the quality benefirs offered by the highest paid designers and cutters. The best tailors in Canada come to Tip Top because they like to work on the best of materials, and because they appreciate steady work.

Tip Top gives you the most desirable styles, the widest range of patterns, the finest domestic and imported woollens, Courtaulds' Art Silk liningsguaranteed for the life of the garment-and a suit made to fit you - from 21 personal measurements. No suit that can be bought for less money can give you Tip Top values-it is physically, financially impossible.

I am of the optimion, that any person will feel the same as I do after they have driven a Buck."

MR. J. OWEN HERITY, Manager Chamber of Commerce, Belleville, Ontario:

"Surpassing excellence in past achievement seems to have "Suspaining excellence in past achievement seems to have been magnificatily ecilized by the new McLaydini-Buick models for 1932 which I have just had the privi-lege of examining at your showrooms here. There is sub-these letter creations on extendite of mechanical port-tion, farmony of lines and beauty of crefitmentally at at more the calciument of new heights in motor-car construction."

Many Belleville citizens have already experienced this New Driving Thrill!

YOU may ask: "What does the new McLaughlin Buick mean to me?" This is the answer: If you are driving a medium or high priced car a year or two old, the new McLaughlin-Buick can probably lighten the strain on your pocketbook and will certainly increase your motoring comfort. You do not know what to expect in the way of driving ease, riding comfort, style, beauty and fine appointments until you have driven a 1932 McLaughlin-Buick. Likewise an inspection of these cars will give you a new idea of what to expect for your motor car dollar.

Hundreds of people, who make it a point to keep well informed, have tried this great car. We print here a few representative opinions. Why don't you bring your information up-to-date? We'll gladly furnish a car for you to drive-without any obligation!

MR. GLENN McIAUGHEN,
St. Charles Motor Co., Belleville, Ontarior
"Better audenifolds are being built and McLaughinbacks in building thes, at least that it my considered
opinion after driving the 1792 Model with the cort

MR. C. B. TREVERTON, Assistant Manager, Can-adian Industrial Alcohol Co., Ltd., Corbyville, Ont.:

"I was very much pleased indeed with the performance of the Buick which I had the pleasure of driving. While I have never driven in a Buick to any great extent, it certainly scens to be up to everything that could be desired".

MR. S. J. FISHER. Insurance, Belleville, Ontario:

"After driving one of your Buckt, with Wixard Control and Syncw-Meth together with the case of handling, six riding qualities and its stylish appearance, and taking into consideration the reputation of McLaughlin-Buckt in the past, I do not think there is any better buy on the market."

MR. G. A. FREEMAN.

Stephens-Adamson Mfg. Co., Belleville, Ontario: "Heving drives the new 1932 Buick I find it all that can be desired in a fine mator car. I was theptical of the Wixard Control, but just a few miles sold me on this splendid innovation."

MR. W. E. TUMMON.

Tweed, Untarios
"After having a ride in the new
McLaughlin-Buich, I would say that I
noticed many new features in the mechanism, equipment and design which I noticed many sque features in the mech-anism, equipment and deripe which I feel add greatly to performance and appearance. What perhaps appealed to me most was the "Free Wheeling". It seemed to be very efficient and must seemed be a factor for solely in congested traffic."

MR. JAMIESON BONE, Investment Securities, Belleville, Ontario:

Investment Securiuse, Betterme, Ontariol
"The write rak had the flyclarure of driving one of your
new 1932 McLaughlin-Buick cers, with Wiserd Control,
and is glad to be able to testify as to its general excellence.
"The cer drives and rides very easily and comfortably
and is wonderful value for the money."

MR. E. R. McBRIDE, Proprietor, The Haines Shoe House, Belleville, Ontario: "I have driven Buick cars for the past 15 years and ask for nothing better."

J. ALBERT FAULKNER, M.D., 101 Bridge Street East, Belleville, Ontario:

"What do I think of the 1932 McLoughlin-Buick?
"What else can I think but that it is a wonderful car.
"My professional duties demond veliable, trousportation. This, together with my detire for com-lordable, economical motor transportation is why I always choose McLoughlin-Buick."

MR. W. S. TRÄSK, Factory Manager, The American Hardware Corp., of Canada, Ltd., Belleville,

Unstajed: "The demonstration of the new McLowphin-Buick that, I had use without doubt the smoothest puming end, handling mechanics motor car that I have had the McLowe of headling. There is no gloub! in the weider's mind that this year's car is the get of all in deltap, high and workmunkly, and every Buick water, keyons the duscibility in a Buick."

The Age of Selection is here

Our times are marked by one vast advantage over all past history-freedom of choice for the average person."

A young man now has a hundred interesting careers to consider. His grandfather had ten. Many paths are open to the scientist, writer, teacher, athlete, business man. When we travel, we often choose between rail and bus and car and plane. Every last thing we buy is one of many offered.

This is the Age of Selection. For advertising keeps us informed. Tells us the special benefits of this, the new features of that. Shows us how to build houses and how to make muffins. Explains why and where and when and how much.

As we read we learn how to discriminate, to recognize worth, to be sure of value received. Before we buy a car or refrigerator or a can of beans, we know what it is and what it offers. Advertising teaches us how to live by this year's rules.

Read the advertisements in this paper. They bring you up to date in this Age of Selection.

Ten Timely **Advertising** Tips

A successful retailer who has spent the best part of his advertising appropriation in good newspaper copy gave ten points which had helped him to become a successful business man through advertising. The ten points:

1. I advertise regularly. Every issue of the paper takes my story to its readers.

2. I make every ad, look like mine. Years ago I adopted a distinctive style, and I have stuck to it. I use plenty of white space; my ads are never hard to read.

3. I put into newspaper advertising a definite proportion of my gross sales which I fix at the beginning of the year. My rule if to make it three per cent, of the previous years 3 gross, with more if special conditions justify it...

4. I brighten my ads with frequent illustrations, either humorous or practical. This costs me little, as the up-to-date newspapers

supply these. 5. I am careful never to over-promise. Then, when I really have an unusual bargain, people believe me when I "whoop'er up a little."

6. I think advertising all the time, I buy goods that will advertise well: Sometimes I buy goods just for their advertising value.

7. I get good display for my ads by seeing that the copy is in the newspaper office in plenty of time. I do this by having a definite hour to write the copy.

8. Whenever possible, I carry the nationally advertised goods that are advertised in my own home paper. I feature them. Sometimes they give me a smaller margin than fly-by-night concerns, but I find that I self laster and make more money in the end, besides pleasing more customers.

I always plan my window and counter displays to link up with my newspaper adver-tising. Each helps the other.

My salespeople back up my adver-ing. They often help me with suggestions for and see to it that they always read it.

Experience added to Experience has produced

The 1932 Kelvinators... with the World's Fastest Freezing and 19 other points of preference

THE 1932 Kelvinators prove more conclusively than ever the value of experience in the production of domestic electric refrigeration. Kelvinator was first in the field and for 18 years has pioneered every new development. Every major invention in the history of domestic electric refrigeration has been contributed by Kelvinator. Every worthwhile feature known to domestic electric refrigeration today is included in the 1932 models. By all means investigate the new Kelvinators. Over 20 distinct points of preference including the following:

World's Fastest Freezing of ice cubes and desserts through

Kelvinator's patented Iso-Thermic Tubes. 4-Zone Cold-4-separate degrees of cold automatically maintained all the time. The Fruit Chest, for meat and fish at below the time. Low every cost, for mear and han at below freezing temperatures. Place Rubbe the Tray, for quick and easy removal of ice cubes. The Kelvin Griper, for keeping lettuce, celery and vegetables crisp and fresh. Lustrous chromium and glistening porcelain combined

in artistic and advanced design. And with all Kelvinator's outstanding merits the prices are remarkably low. Ask your nearest Kelvinator dealer about the New Patces. Made in Canada by Kelvinator of Canada, Limited, London, Omario.

WOMEN everywhere are certain of the unequalled protection offered by Kotez — and Kotex alone. Made in air-washed rooms; of tested materials; inspected 76 times before it is cut, folded and packed in hygienically sealed, dust-proof packages — all by matchine! No question mark hovers over genuine Kotex. No incessant doubt as to how it was made, where, under what conditions.

Soft, Comfortable

Soft, Comfortable

Kotex provides perfect comfort

downy softness... even the
guare is specially treated to make
te maningly soft. West it on either
side with equal safery. Estily dispossible, of course.

The fact that Canada's leading
hospitals use millions of Kotex
pads each year is reason enough

for you to feel secure when you select Kotex.,

In every refinement of detail. Kotex offers you such comfort—such security, that it will pay you to make sure, when buying it wrapped, that you do get Kotex.
